

SteelCor™ Culvert Markers

Armtec **SteelCor™ CSP Culvert Markers** are low cost solutions that readily identify the ends of drains, culverts, and the locations of various other utilities in winter months.

The bright orange tubing of the SteelCor CSP Culvert Markers alerts snow removal machine operators of the exact culvert or utility location when clearing and ditching before spring run off. SteelCor CSP Culvert Markers affix to utilities with culvert clamps and fit on all existing competitors' clamps.

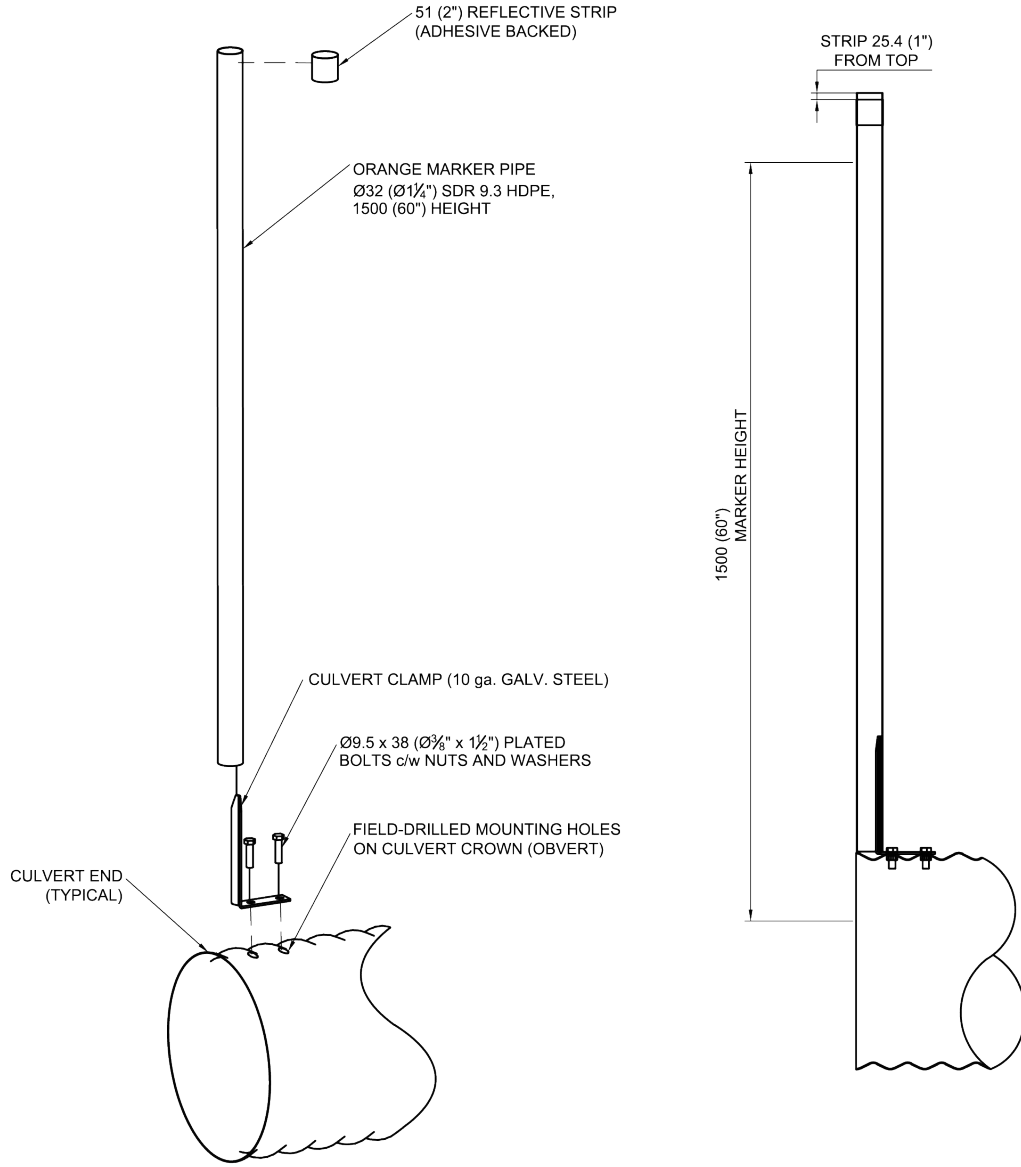

Easily recognized, SteelCor CSP Culvert Markers help towns and municipalities save costs on expensive repairs and replacements on damaged utilities and culverts. For recreational snowmobilers and ATV operators, the SteelCor Culvert Markers ideally serve as safety devices warning of obstacles to avoid against serious accidents and injury.

A low cost solution
that identifies
Culverts & Utilities
in winter months.
